

To define what to display to the Pentester Portal and to the Client Portal, just open the pentest settings and apply as below:

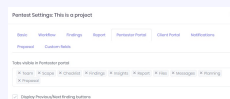

TABS VISIBLE IN PENTESTER PORTAL

Select tabs visible to the pentester portal from the list:

DISPLAY PREVIOUS/NEXT FINDING BUTTONS

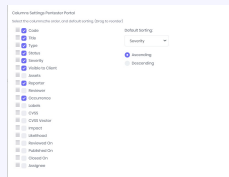

Check this settings for the Previous and Next buttons to be displayed when open a finding:

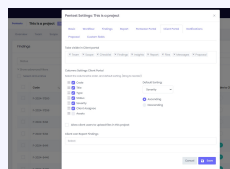

COLUMNS SETTINGS PENTESTER PORTAL

Select the columns you want to be displayed to the Findings grid of the Project, drag each field to reorder and

define the default
sorting:

**THE SAME
SETTINGS CAN
BE CONFIGURED
TO THE CLIENT
PORTAL AS
WELL.**

Here you can also
enable client users
to upload files into
Files of the project
and define the type
of findings the client
users can [report
from the Client
Portal](#).
