

Setup teams, onboard employees, and link them to offices, locations, and roles, and assign them to Pentests and Tasks.

ONBOARDING PEOPLE

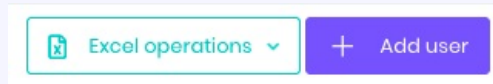

1. Click "Administration" at the bottom of the left-hand menu

2. Click "Users"

3. Click "New User"

4. Add the User's information including email address, you may also assign them to a Team at this time

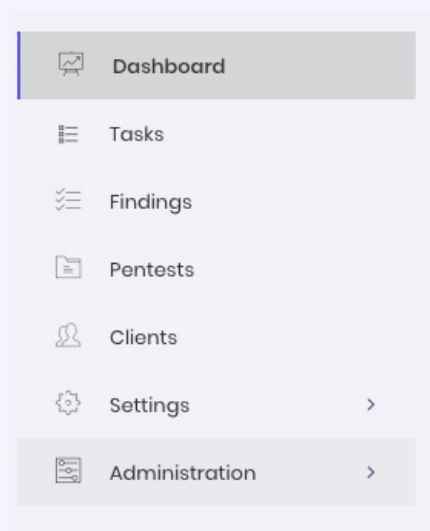

A screenshot of a "New user" form. The form has two tabs: "User information" (selected) and "Teams". Under "User information", there is a profile picture placeholder, fields for "Name*", "Surname*", "Email *", and "Phone number". Below these fields are four checkboxes: "Request email activation" (checked), "Active" (checked), "Two-factor authentication enabled" (unchecked), and "Lockout enabled" (checked). At the bottom right, there are "Cancel" and "invite" buttons.

5. The User will receive an email with a setup link, where they can verify their profile and update it.

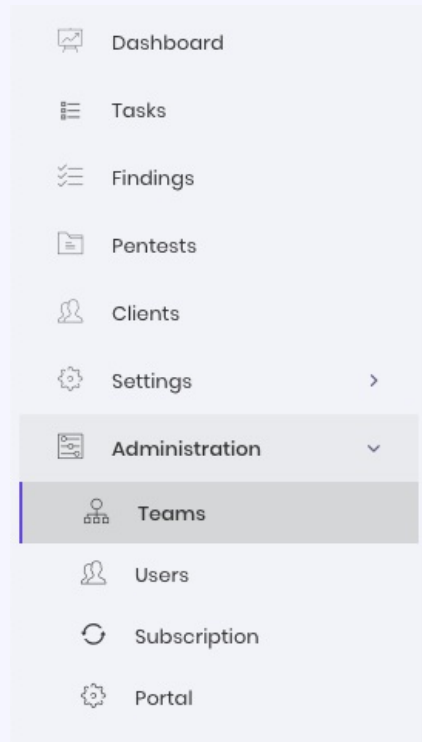

SETUP TEAMS:

Cyver supports teams and sub-teams.

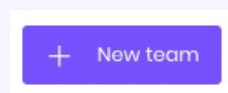

1. Click "Administration" at the bottom of the left-hand menu

2. Click "Teams"

3. Click "New Team" if creating your first Team

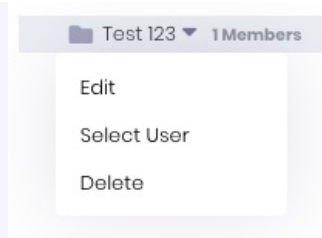

4. Name your team

A screenshot of a "New organization unit" dialog box. It has a title bar with a close button (X). Inside, there is a "Name" label and a text input field containing "Demo Team 001". At the bottom right, there are "Cancel" and "Save" buttons.

SETUP SUB-TEAMS:

From the Teams menu:

1. Click the dropdown arrow next to the Team Name you want to edit

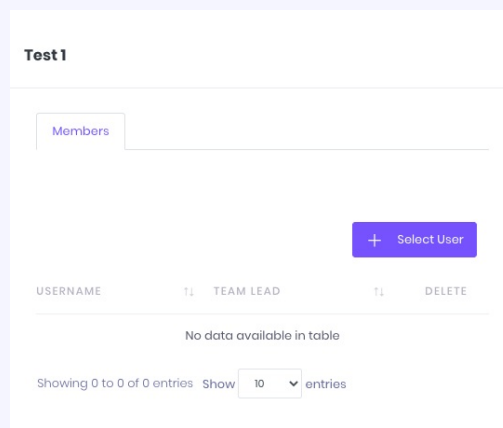

2. Click “Save”

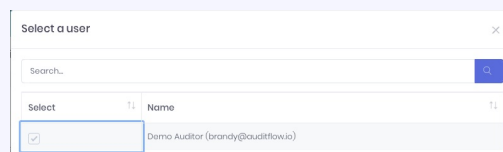

ADD PEOPLE TO TEAMS

1. Click the team you want to edit

2. Click “Select Member” from the dropdown menu or from the popup menu

3. Type a username and add the individual to the team

ASSIGN ROLES

Roles comprise different types of users in a team, currently limited to “Pentester”, “Admin”, “Client”, and “User”. These roles affect how the user accesses and sees Cyver Core.

- Admin accounts have full control over all data
- Pentester accounts have full access to

project creation, templates, finding, and linked tooling

- Client accounts only see published findings and active projects

Once you're finished, you can click through to Part 3 of startup: [Setting Up Compliance Norms](#)
