

Cyver Core's pentest management portal is fully white-label. This means you can customize the look and feel with your own logo, colors, fonts, and more. In addition, you can individually customize reports, headers, footers, and more, so your brand takes the spotlight when you deliver pentests and reports.

NAVIGATE TO THE PORTAL MENU

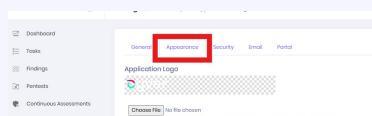

1. Click **Administration** in the menu

2. Click **Portal**

3. Click a selection in the sub menu to start making changes!

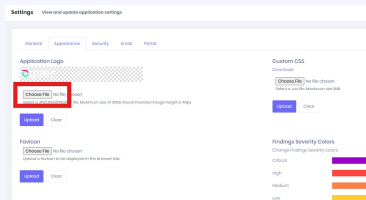

LOGO

Upload your application logo to show in the platform header.

1. Go to **Appearance**

2. Click **Choose File** and Upload a JPG/JEPEG/PNG/GIF file. The recommended height is 40px. The maximum file size is 30kb.

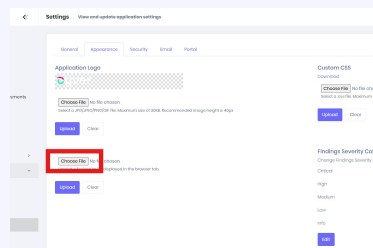

3. Click **Upload**

FAVICON

You can update the favicon that displays in your application browser tab for both employees and clients. For best results, Cyver recommends using a 16x16px image in SVG format.

1 Go to **Appearance**

2. **Choose** a Favicon file

3. **Upload** your Favicon file

CUSTOMIZE PORTAL COLORS WITH CSS

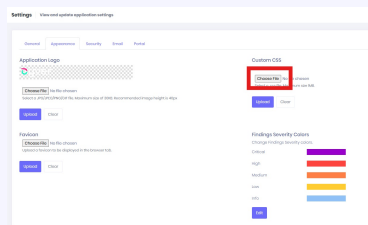

You can use custom CSS to add your own colors to the portal header and backgrounds.

1. From **Appearance**

2. Click . Click **Choose File** under Custom CSS.

Sample file:

```
#kt_header {  
    background-color:  
#000227;  
}  
  
#kt-header-mobile {  
    background-color:  
#000227;  
}  
  
.kt-header .kt-  
header__topbar .kt-  
header__topbar-  
item.kt-  
header__topbar-item--  
user .kt-  
header__topbar-  
username  
{  
  
    color: #fff;  
}
```

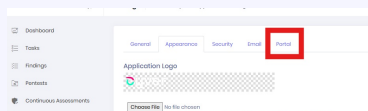

5. **Upload** your Custom CSS

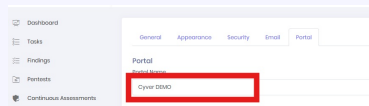

NAME YOUR PORTAL

You can customize the name of the Cyver Portal at any time. This name shows up to your Clients when they log into the portal.

3. Go to **Portal**

4. Under Portal Name, type the new name of your Cyver Core portal.

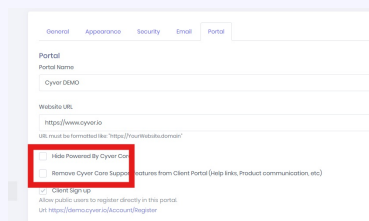

REMOVE CYVER BRANDING

Your default Cyver Core portal is branded with Cyver Core logos and offers Cyver Core support in the Client Portal as a free service to your Clients. With some Cyver Core subscriptions, you can remove this and use only your own branding.

1. Go to **Portal**

4. **Select** any Cyver Core branding or assets you wish to hide in the client portal.
