

Cyver Core puts you in control of pentest requests and creation.

To get started:

1. Click "Pentests" in the left-hand menu

2. Select "+ Request New Pentest" in the upper right

3. Choose a Pentest Template. These are Pentests your Pentester has made available to you as options. *

 A screenshot of a web form titled 'Request new pentest'. It contains a dropdown menu for 'Pentest Template' with 'Test template' selected, a text input field for 'Name', a text input field for 'Request Start Date', and a text area for 'Comment'. At the bottom right are 'Cancel' and 'Request' buttons.

4. Name the Pentest

5. Request a Start Date

6. Add any Additional Information

7. Click "Request" to send your Request to the Pentester.
