

The account Admin can update and change passwords at any time. To do so:

1. Click "Settings" in the left-hand menu

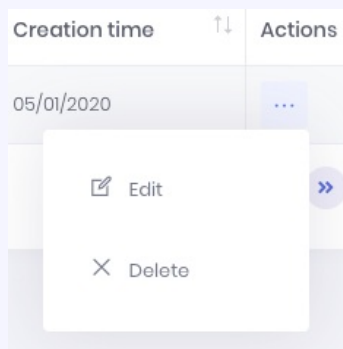

2. Click "Users"

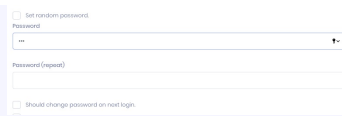

3. Click "..." on the User you wish to edit

4. Click "Edit"

5. Set New Password

A screenshot of a password settings form. It includes a checkbox for "Set random password", a "Password" field with a toggle for visibility, a "Password (confirm)" field, and a checkbox for "Should change password on next login".

6. Click "Save"

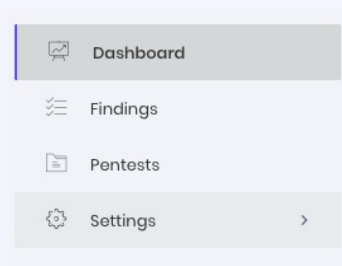

*\* Check "Send Activation Email" to resend a new verification email, for example, if you also updated the user's email address*

*\* Check "Change Password on Next Login" to force the user to set their own new password on login*

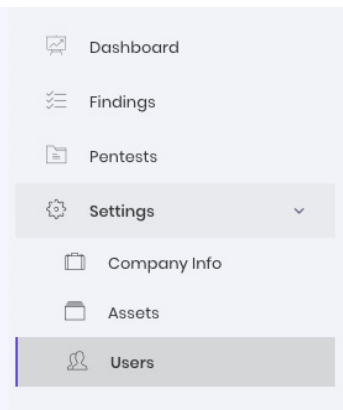

## LOCKOUT

Lockout automatically restricts the User from accessing the portal if someone tries and fails to log into their account more than 3 times. You can turn this off by:

1. Click "Settings" in the left-hand menu

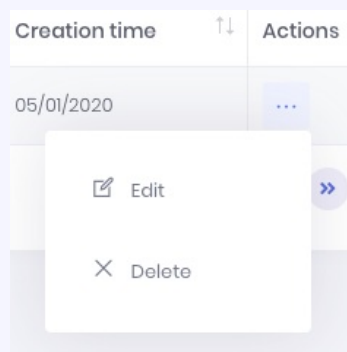

2. Click "Users"

3. Click “...” on the User you wish to edit

| Username         | Name   | Surname     | Role   | Email address    | Email confirm | Active                              | Creation time | Actions |
|------------------|--------|-------------|--------|------------------|---------------|-------------------------------------|---------------|---------|
| admin@pentest.it | Client | Super Admin | Client | admin@pentest.it |               | <input checked="" type="checkbox"/> | 16/03/2020    | ...     |

4. Click “Edit”

5. Uncheck “Lockout Enabled”

☐ Should change password on next login.

☐ Send activation email.

☒ Active

☒ Lockout enabled

Cancel

Save

6. Click “Save”
